- Corrosive gasses
- High concentrations of organic gasses.

Introduction

The Fire Box is a the big entertainment switch which you want to press at the highlight of your show.

It features a big red button, safety switch and a Red LED indicator to show the user that the device is armed!

The Red button consist of a 60mm red push button which gives a excellent feeling when pressing.

The 2 step safety switch will remove the danger of accidentally activating the device.

Using the Fire Box

WIRING

Power the device by connecting a "Powercon True One" cable to the input of the device.

Connect with another Powercon true one cable from the output of the device to the desired devices that you would like to activate when pressing the button.

ARMING THE DEVICE

The device can be armed by activating the safety switch just above the main big red button. Arming is done by flipping the protective cap up, which exposes the safety switch, and flipping the safety switch. Disarming is done by simply flip the "protective cap" back which also flips the safety switch back.

Whit this you would have 2 steps to arm and 1 step to disarm, making it safer to use.

FIRING THE DEVICE

When the device is armed, the LED on the tip of the safety switch and the letters "FIRE" underneath the big red button wil light up.

By pressing the big red button at this moment wil activate the device!

Parts

1. Switched Power Output
2. Power Input
3. Safety Arm
4. Fire Button

Warranty

The Fire Box has a 5 year warranty which will be void if the Fire Box is handled differently than described in this manual.

The warranty is void when the Fire Box has been opened by anyone other than The Confetti Maker.

The Confetti Maker is not responsible for any paint or hardware damaged as a result of rough handling.

CAUTION! Always contact your supplier in case of malfunctions.
Never try to repair the Fire Box yourself.
